

Wheaton College.

1879-80.

CALENDAR FOR 1880-1881.

The College year includes three terms of thirteen weeks each.
 Tuesday, September 7th, 1880.....Fall Term opens.
 Friday, December 3d, “Fall Term closes.

VACATION.

Tuesday, December 14th, 1880..... Winter Term opens.
 Friday, March 11th, 1881..... Winter Term closes.

VACATION.

Tuesday, March 22nd, 1881..... Spring Term opens.
 Wednesday, June 22nd, “ Spring Term closes.

VACATION.

PROGRAMME FOR COMMENCEMENT WEEK.

Sabbath A. M., June 19th, 1881.....	Baccalaureate Sermon.		
Sabbath Eve., “ “ “	}	Address before the Society of Inquiry.	
Monday Eve., June 20th, “			}
Tuesday Eve., June 21st, “	Anniversary of Alumni Ass'n.		
Wednesday, June 22nd, “	COMMENCEMENT DAY.		

EXPENSES.

Tuition and Incidentals per term of thirteen weeks.....	\$10 00
Table Board, per week.....	2 00
Unfurnished Room in building free to young ladies.	
Partially Furnished Room, per week.....	20
Wholly Furnished Room, per week.....	40

COURSES OF STUDY.

COLLEGE COURSES.

CLASSICAL COURSE.		LAUREATE COURSE.
Terms.	<i>Freshman Class.</i>	<i>First Year Class.</i>
1st.	Cicero de Officiis. Greek Selections. Greek Prose Composition. Geometry.	Cicero's Orations. Geometry. English Literature.
2d.	Greek Selections. Greek Prose Composition. Higher Algebra. Horace.	Rhetoric. Virgil. Higher Algebra.
3d.	Plane Trigonometry. Surveying. Livy. Greek Selections. Greek Prose Composition.	Virgil. Plane Trigonometry. Surveying. Botany, with Lect. on Structural Bot.
<i>Sophomore Class.</i>		<i>Second Year Class.</i>
1st.	De Natura Deorum. Greek Testament. General Geometry and Calculus. English Literature.	Cicero de Officiis. Molecular Physics. Mechanics.
2d.	Demosthenes de Corona. General Geometry and Calculus. Rhetoric.	Horace. German or French. Spherical Trigonometry. Astronomy.
3d.	Botany, with Lect. on Structural Bot. General Geometry and Calculus. Tacitus.	German or French. Livy. Astronomy.
<i>Junior Class.</i>		
1st.	Horace and Juvenal. Molecular Physics. Mechanics.	
2d.	Sophocles. Spherical Trigonometry. Astronomy. German or French.	
3d.	Astronomy. Plato. German or French.	
<i>Senior Class.</i>		<i>Senior Class.</i>
1st.	Mental Philosophy. Constitutional Law. Chemistry. German.	Mental Philosophy. Constitutional Law. Chemistry. German.
2d.	Geology. Psychology. Philosophy of the Plan of Salvation. Logic.	Geology. Philosophy of the Plan of Salvation. Psychology. Logic.
3d.	Butler's Analogy. Moral Philosophy. Political Economy. Evidences of Christianity.	Butler's Analogy. Moral Philosophy. Political Economy. Evidences of Christianity.

PHILOSOPHICAL COURSE.—Students not having time to pursue the full *Classical Course*, may, after having passed the Freshman Year, by consent and direction of the *Faculty*, pursue a course of two years, to be selected from the last three years of the *Classical Course*, provided they shall not be permitted to omit the course in Mental or Moral Philosophy. Students having pursued such a course will receive the degree *Bachelor of Philosophy* (Ph. B.).

PREPARATORY COURSES.

	CLASSICAL PREPARATORY.	LAUREATE PREPARATORY.	NORMAL AND BUSINESS COURSE.
	FIRST YEAR.		
1.	Higher Arithmetic. Latin Grammar and Lessons. Natural History.	Higher Arithmetic. Latin Grammar and Lessons. Natural History.	Higher Arithmetic. Latin Grammar and Lessons. Natural History.
2.	Elementary Astronomy. Latin Grammar and Lessons. U. S. History.	Elementary Astronomy. Latin Grammar and Lessons. U. S. History.	Elementary Astronomy. Latin Grammar and Lessons. U. S. History.
3.	Latin Grammar and Lessons. Ancient and Modern History. Book Keeping. Penmanship.	Latin Grammar and Lessons, Ancient and Modern History. Book Keeping. Penmanship.	Latin Grammar and Lessons. Ancient and Modern History. Book Keeping. Penmanship.
	SECOND YEAR.		
1.	Cæsar and Latin Composition. Greek Grammar and Lessons. Anatomy and Physiology.	Cæsar and Latin Composition. Elementary Algebra. Anatomy and Physiology.	Book Keeping or Chemistry. El. Algebra. Anatomy and Physiology.
2.	Elementary Rhetoric.—Elocution. Cæsar and Latin Prose Composition. Greek Grammar and Lessons.	Higher Algebra. Cæsar and Latin Prose Composition. Elementary Rhetoric.—Elocution.	Training Class in Grammar. Higher Algebra. Elementary Rhetoric.—Elocution.
3.	Greek Grammar and Lessons. Sallust and La in Composition. Physical Geography. Blackboard Drawing.	Higher Algebra and Geometry. Sallust and Latin Composition. Blackboard Drawing. Physical Geography.	Botany. Blackboard Drawing. Physical Geography. Higher Algebra and Geometry.
	THIRD YEAR.		
1.	Cicero's Orations. Anabasis. Elementary Algebra.		Constitutional Law and Geometry. Commercial Law or School Law. Training Cl. in Geography & History.
2.	Anabasis. Virgil. Higher Algebra.		German. El. Natural Philosophy. Training Class in Arithmetic.
3.	Higher Algebra and Geometry. Virgil. Iliad.		German. Political Economy. Trigonometry and Surveying.

PRIMARY CLASSES.—The following studies, designed for those not sufficiently advanced to enter the Preparatory School, will be taught each term during the year: Reading, Spelling, Writing, Political Geography, Arithmetic to Percentage, and Grammar to Syntax.

The training classes will be organized each term when a sufficient number desire it. Special reference has been had to the requirements for a State Teacher's Certificate in arranging the Normal Course.

GENERAL INFORMATION.

THE AIM OF THE INSTITUTION.

Is to train both mind and heart, and to send forth young men and women well furnished in mind and thoroughly grounded in the principles and practice of an active and reformatory Christianity. No distinction is made as to sex in the courses of study; all students are expected to do thorough work, and will be accredited with the amount accomplished.

THE COLLEGE.

THE College contains three courses, one of four years and two of three years each.

1. THE CLASSICAL COURSE, OR COURSE OF ARTS.—This course embraces instruction in Mathematics, Natural Science, the Classical Languages, German or French, Mental, Moral, Political and Christian Science. It occupies four years and is equivalent to that usually pursued in the better class of American Colleges. It leads to the degree Bachelor of Arts (A. B.)

2. ABRIDGED COURSE.—Such students as have not time to complete the full Classical Course may, after completing the Freshman year, for two years pursue studies to be selected by the Faculty from the remaining three years of the Classical Course, provided that no part of the course in Mental and Moral Philosophy shall be omitted. Students completing this course will receive the degree Bachelor of Philosophy (Ph. B.).

3. THE LAUREATE COURSE.—A third course of study is provided, containing no Greek and a less amount of Mathematics and Latin. It occupies three years and is designed to meet the wants of those who have not time or means to take the Classical course and do not wish to study Greek. One less year is required to prepare for it than for the Classical course. The degree Laureate in Arts (A. L.) is conferred on students completing the Laureate course. Graduates from either of the shorter courses may secure higher degrees by pursuing the studies omitted.

A COURSE OF HISTORICAL READING.—The Faculty have laid down the following course of reading for the students in College Classes. Those in the Classical course will read the entire list; those in the Laureate and Philosophical will read the first, third and fourth year lists, omitting the second. In the first year: first

term, England; second term, Germany; third term, Holland. In the second year: first term, France; second term, Spain; third term, Italy. In the third year: first term, the four great Empires; second term, Greece; third term, Rome. In the fourth year: first term, the Reformation; second term, the History of Civilization; third term, the Constitutional History of England.

No daily recitations will be required on these topics, but at the end of each term every student will be required to pass an examination on the reading of that term.

THE PREPARATORY SCHOOL.

This contains two courses of study of three years each, and one of two years.

THE CLASSICAL PREPARATORY—This course comprises three years of Latin, and two of Greek, together with Mathematics, Natural Science, History, etc. It fits pupils for the Classical and Philosophical courses of this and other colleges.

THE LAUREATE PREPARATORY.—This is a course of two years, containing no Greek, and fitting students for the Laureate course of the College.

THE NORMAL COURSE.—This course furnishes the very best facilities for a thorough English education. It is confidently believed that those not intending to pursue a college course, but wishing to fit themselves for teaching in the public school, or those wishing a practical education for the ordinary pursuits of life, cannot find elsewhere better opportunities. The course comprises all the branches required for a State teacher's certificate, besides Book-keeping, German, Latin, Trigonometry, Surveying, Political Economy, etc., etc. Special attention is called to the four training classes which will be under the charge of experienced teachers, and will meet every term when desired. A very thorough

BUSINESS COURSE is offered to all who may wish it by substituting a second term of Book-keeping and Commercial Law for Chemistry and School Law.

Graduating Exercises will be held for those completing either course of the Preparatory School, and certificates will be given to them. It is believed that with the present scheme of instruction, the institution is prepared to offer a suitable course to any one who come, and *all are urged to pursue regular courses*. Those who prefer to do so can select studies from any or all of the above courses.

THE ENGLISH PREPARATORY SCHOOL.

Classes will be taught for those not sufficiently advanced to enter either of the Preparatory courses. Under this head come Reading, Spelling, Arithmetic, Grammar and Geography. Many students come desirous of taking a course, but are insufficiently prepared in the common branches. There are also frequently persons of mature years, whose early opportunities have been slight, but who bring to their studies the zeal and judgment of men and women. Besides these, there have usually been connected with the institution foreigners, persons of some attainments in their own languages, who enter for the purpose of learning English. Many persons have also sent younger pupils here, being better satisfied with the work done than with that of the public schools in their vicinity.

REQUIREMENTS FOR ADMISSION.

Students desiring to enter one of the College courses will be examined in the studies of that course of the Preparatory School which precedes it. They must present satisfactory evidence of good moral character, and be over 14 years of age.

Persons wishing to enter the Preparatory School, will, unless provided with certificates from the Wheaton Public School for the English branches, be examined in Reading, Spelling, Geography, Arithmetic to Ratio, and Grammar. For Normal Course, Grammar is required only to syntax.

Certificates from other institutions will be accepted when the Faculty is satisfied that real and thorough work has been done.

RELIGIOUS INSTRUCTION.

Morning exercises are held before beginning the recitations of the day, which all students are required to attend. These exercises continue half an hour and include roll-call, singing, reading of the Scriptures, prayer, brief expository lectures by the President, and at stated times essays from members of the Senior Class. This half hour is very valuable not only as a means of imparting religious instruction, but as a fitting introduction to the work of the day.

All students are required to attend public worship and Bible recitations on the Sabbath, in the College Chapel, unless, at the request of parents or guardians, permission is given to attend elsewhere. The other churches of the village are the Baptist, Episcopal Methodist, Congregational, Wesleyan and Free Methodist, Episcopal and German Lutheran.

The Tuesday evening prayer-meeting, maintained by the students for many years past, continues to be a source of great good to the Institution. A daily noon prayer-meeting has also been sustained for several years past.

SOCIETIES.

There are three literary societies connected with the College: BELTIONIAN and EXCELSIOR for gentlemen, and the ÆLIOIAN for

ladies. They hold weekly meetings for the purpose of literary improvement and give occasional public entertainments. The three societies are united in the LITERARY UNION, which has a reading room and a well-selected library.

There is also a SOCIETY OF INQUIRY, the object of which is to promote among its members an interest in Christian work in our own and other lands.

MUSIC.

A VOCAL MUSIC class meets from 4 to 5 P. M., four days each week, which may be entered by paying \$1.00 per term. The instruction will generally begin with the first principles and advance as rapidly as is consistent with thoroughness.

INSTRUMENTAL MUSIC. Instruction is given on both piano and organ; also, in harmony, vocal culture, and the art of teaching music. These are, of course, extra studies not covered by the regular tuition, and are furnished at the rate of \$13.00 per term. A reduction will be made for classes.

FINE ARTS.

The class in BLACKBOARD or FREE-HAND DRAWING is open without extra charge to all members of the Institution who desire to enter it; others will be charged \$3.00 per term.

PENCIL, CRAYON and MONOCHROMATIC DRAWING and PAINTING in OIL and WATER COLORS are extra studies. The terms are low, and the instruction thorough. Special attention is given to study from life, composition, designing, and qualifying pupils for teaching.

In drawing a regular course will be pursued and diplomas awarded to such as complete it. The course will include object drawing, linear perspective, and studies of fruit, flowers, animals, landscapes and heads.

In all these studies the aim is to teach the pupil to see, to think, and to do independently of the teacher; and not merely to make artists of the few who can spend the requisite time, but to cultivate the imitative faculties and love of the beautiful in all who pursue them.

The terms are as follows:

Mechanical Drawing, per term.....	\$ 6.00
Object, Perspective and Life Study, in Pencil or Ink, per term...	6.00
Monochromatic and Crayon Drawing, per term.....	8.00
Painting in Water Colors, per term.....	10.00
Painting in Oil Colors, per term.....	18.00

Students may take from two to six hours per day as they please. Persons may connect themselves with this department alone, and doing so, are not subject to the rules of any other department of the institution.

Those who have taken one term in Free-Hand Drawing, may have instruction in Pencil Drawing one hour a day at the rate of \$4.00 per term.

RULES.

ADOPTED BY THE TRUSTEES.

The faculty shall aim to exercise a parental and moral supervision over the character and conduct of the students.

Among the things required of the students, are: A proper deportment; a decorous intercourse among themselves; a respectful treatment of their officers; not to leave town during term time, or their rooms during study hours or at night, without permission; a punctual attendance upon all the prescribed exercises of the College, and upon public worship and Bible recitations on the Sabbath.

And, that there may be no misunderstanding, the following things are positively disallowed; All offensive, indecent, profane language and behavior; playing at billiards, cards and other games of chance; the use of intoxicating drinks and tobacco; attending any secret society while connected with the College; all disorder in rooms for study, or in College buildings, or on College premises particularly at night; injury to College property; throwing water, fire or filth from the windows; desecration of the Sabbath; the propagation of infidel sentiments; interchange of visits between the sexes in their private rooms, or the occupation of the same room for study, except in company with the family where they board; entering the marriage relation while members of the College; everything, in fact, inconsistent with the utmost propriety of intercourse between young ladies and young gentlemen, and therefore adverse to the most successful improvement of their minds, and hearts.

For any violation of these rules or other disorderly conduct, any officer to the College has power to suspend a student till the next meeting of the Faculty.

RULES ADOPTED BY THE FACULTY FOR THE GOVERNMENT OF THE SOCIETIES.

It is to be understood that the Literary Societies are a part of the institution and as such are not subject merely to their own regulations, but both the societies and the individuals composing them are, for any disorderly and factious conduct, amenable directly to the Faculty and will be dealt with in such manner as good order may seem to require.

The Faculty will from time to time make such regulations concerning the Literary Societies as may seem necessary to their efficiency and the good of the College. Those in existence at present are the following:

1st. No person, not otherwise connected with the institution, shall become a member of any Literary Society except from term to term by special vote of the Faculty. Persons thus admitted become so far forth members of the institution and subject to its discipline.

2d. The number of Literary Societies, aside from the Literary Union, shall not be more than four, two for each sex.

3d. The societies shall adjourn at or before ten o'clock P. M.

4th. Alterations in the constitutions of the Societies are subject to the approbation of the Faculty.

5th. There shall not be more than two public meetings in any term.

6th. Members of a society guilty of factious or disorderly conduct, will not be allowed to continue in the society.

7th. No special meetings shall be held during study hours, without special permission.

MARKS.

Students are marked upon their recitations on the scale of 10. The term-examinations are also marked by a committee of the Faculty appointed to attend them. In making up the standing the term-marks count two-thirds, and the examination-mark one-third. Seven is required for advancement. One-third will be deducted from the term-marks of students absent from examination without permission. Such students on renewing their connection with the Institution must sustain examinations by which alone their standing will be determined.

No teacher will excuse any student from examination in any class unless deficient in term-marks, and intending to pursue the same study again, or to withdraw from the course in which it occurs. The standing of others who are for good reason excused by the Faculty, will be reserved until the beginning of the next or some subsequent term, when they will be examined and their standing made up from their term-marks in the usual way.

A record is kept of the standing of students, and the officers having the record book in charge, will make out on the scale of 100, at the end of each year the general average of the Senior Class on the entire College course.

So great a portion of the year is allotted to vacations that it seems unnecessary for students to visit their friends during term-time, except for urgent and unforeseen reasons. The occasional loss of a day or two cannot fail to have an injurious effect upon the standing and mental habits of a student. It is hoped that parents and guardians will not desire their students to be absent except when circumstances positively require. Leave of absence must be obtained of the proper officer.

STUDY HOURS.

In the Fall and Winter Terms, from 9 A. M. to 12 A. M., from 2 P. M. to 4 P. M., and from 7 P. M. to 9 P. M.
